skills

about me

A healthy mix of technical and design skills helps me approach each new challenge with open mind and excitement. Skills that I acquired during my architectural career can be translated directly into frontend mindset - problem solving, organizing complex projects and forming ideas into reality. All of that delivered in teams of talented and competitive colleagues. I'm looking for full-time front-end developer position.

experience

10/2015 - 10/2016, and 03/2017 - Now

## **Bryden Wood Technology (London) - Architectural Assistant**

I have been given the opportunity to work in multiple teams delivering for GlaxoSmithKline, Vastin, Johnson Matthey, Laing O'Rourke. Working on all stage, from concept to detail design, I was also:

- A member of **technical team providing guidance** to facilitate the work of other teams.
- Researching and implementing work-flows for CGI and Building Information Modelling that drastically speed up the delivery process in the company.

education

01/2021 - Now

## **Project Odin Bootcamp** "Foundation" and "Full Stack JavaScript"

2011 - 07/2017

## **Poznan University of Technology (M.Sc.)** Field of study : Architecture ,including:

- Erasmus - University degli studi di Firenze
- Research Laboratory of Digitally Design Architecture
